asyl-remseck.de

phone: 0177 / 3238477
(also via the messenger
service Signal)

**Please always observe the
current Corona protection
measures on the ground,
which are also pointed
out on the ground.**

Already a minimum of individual mobility can help to make daily life in Remseck a lot easier to handle for everyone, including our new community members in Remseck.

This was the reason in 2015, when the first refugees arrived in Remseck, to launch our „Bicycle Repair Shop“ within the AK Asyl Remseck e.V. Since then the repair shop has been active and busy under the experienced guidance of Steffen Obergfäll.

Our intentions

We receive donated bicycles, restore them – if necessary – to a roadworthy condition and make them available to people with refugee experience for a small fee.

We help them with repairing and maintaining their bikes and finding answers to all sorts of problems associated with bicycles – following our motto „help people to help themselves“.

We do not see ourselves as a service provider that completely repairs bicycles and makes them available again, but as a "join-in workshop" where people with refugee experience can maintain, care for and repair their bicycles themselves and receive all the support they need in terms of advice, action and materials.

And of course, amiable conversations and social contacts are not missing out at our gatherings.

How you can help

We have sparked your interest and you would like to help?

We will gladly receive your bicycle donations – ideally on a Monday directly at our repair shop after 5 pm.

You would like to support or even join our team? Please contact us, we will be happy to hear from you.
